**The Recent Indian Treaty—Investigation Asked—The Grand Army of the Republic—Important Action by Congress.**

By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, June 30, 1868.

THE RECENT INDIAN TREATY.

Hon. N. G. Taylor, Commissioner of Indian Affairs, has sent a letter to Senator Henderson, Chairman of the Committee on Indian Affairs of the Senate, asking a full and rigid examination into all the circumstances attending the recent treaty for the sales of the Osage lands. He states positively that such an investigation will prove that the transactions attending the treaty were conducted in a most just and conscientious manner, both for the Indians and for the State of Kansas.

THE GRAND ARMY OF THE REPUBLIC—IMPORTANT ORDER AND REQUEST.

The following has been issued:

HEADQUARTERS GRAND ARMY OF THE REPUBLIC. WASHINGTON, June 25th, 1868.

### TOPICS AND GOSSIP AT THE CAPITAL.

Senator Thayer's bill to regulate and fix the military establishment of the United States, amends the act to increase and fix military establishment of the United States by repealing section 13, which fixes the number of Captains in the Quartermaster's Department at thirty, and the number of Majors at fifteen, and prohibits the filling of vacancies until the number of such officers is so reduced.

A special to the *Chronicle* says: Colonel Tappan, member of the Indian Peace Commission, arrived here this morning from the Plains. Generals Sherman and Sanborn are expected in a few days. The work of the Indian Commission is for the present finished, and nothing can be done until the treaties already made are ratified. Colonel Tappan reports that many stories put in circulation about the Indians manifesting a disposition to go on the war-path again are unfounded. The Commission are very apprehensive that there will be trouble growing out of the failure or negligence of the Government to keep the treaties already made by them. The Indian tribes, without any exception, express a willingness to go on the reservation provided for them in the treaties made, and live faithfully up to the stipulations therein contained, but the Senate by failing to ratify these treaties, has prevented them from doing so. In consequence there is growing distrust among the Indians that the government does not intend to fulfill the conditions of the treaties recently made. It is the opinion of the Commissioners that if the Senate would promptly ratify the treaties made, and make necessary appropriations to carry them into effect, no further trouble with them need be apprehended. The Commissioner's labors were brought to an end for want of money to make temporary provisions for those Indians with whom treaties have been made. A treaty was recently concluded with the Navajo Indians. The Peace Commissioners found them in nearly a starving condition, although the Government pays contractors annually from five to seven hundred thousand dollars. The contract to feed this tribe, numbering seven thousand five hundred were given to Perry Fuller at nineteen cents per ration, but he sub let it to persons in the West at eleven cents per ration. The Commissioners concluded a treaty to remove them from their present reservation, upon which it is impossible to subsist, owing to the peculiarity of the soil, to one where they can engage in agricultural pursuits. The Commission while here will urge upon Congress and the proper authorities the necessity of taking immediate action upon the treaties, and thereby save the Government several millions of dollars annually, and prevent further bloodshed on the Plains. Unless this is done, it is believed that the Indians will again commence their depredations, as they cannot subsist in their present condition.

The President having allowed ten days to expire without action on the bill to override the recent election troubles, it is now a law, and the Republicans secure the Mayoralty, both branches of Councils and the city officers.

The Senate will take up the tax bill on Friday. Mr. Cobb's proposition to tax United States bonds will be passed in the House, but the Senate will postpone it until next session.

The foreign Atlantic steamship companies have agents here working to defeat the proposed subsidy to an American line of steamers.

The President has signed the bill enforcing the eight hour law in all the navy yards and other Government workshops. It takes immediate effect, and all the employees at the Government printing office commence work under it to-day.

Two of the most prominent claim agency firms in the country are said to be implicated in the frauds recently discovered in the Land Auditor's Bureau.

Mr. Stevens' plan to divide Texas goes over to the next session.

Gen. Grant left for Cincinnati to-day to visit his father.

The President's family left for Tennessee to-day,

**The Irish Church Appointments Suspensory Bill Rejected—The Scotch Reform Bill—South American War—French Expeditionary Corps in Italy—General Council of the Catholic Church—Treaty Ratified.**

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, June 30.—The debate on the Irish Church Appointments Suspensory Bill was continued in the House of Lords last night. The public interest was undiminished and the crowds on the floor and in the galleries were even greater than on the previous nights. It was generally expected that a division would take place. During the sitting the Prince of Wales and Prince Alfred were present. The Duke of Argyle spoke in support of the bill, urging its immediate passage. He said it was to be regretted that the Royal Commission on the Irish Church had as yet made no report, as he was sure among their recommendations would be one for the reduction of the number of appointments in the Irish Church. The rejection of the suspensory bill would be a pecuniary loss. The measure was one to conciliate not only the Fenians, but the entire people of Ireland. The Irish Church Establishment was a relic of an ancient wrong, and its abolition would heal the wounds of Ireland. He concluded by maintaining that the issue was one of policy, and not of property.

The Bishop of Oxford said this measure would not pacify the Irish people, who wanted nothing else than separation from England.

Earl Russell said the Irish Church had failed to accomplish the objects of its existence. The qualities of the terms made at the union of England and Ireland had never been kept. He deprecated the policy pursued on this question by the Ministry, and ended with an eloquent appeal to the generosity of the Government, declaring if the affections of the people were secured, the Crown would lose nothing.

Lord Cairns complimented the House for the good temper shown in this debate, and he reviewed the course of the framers of the bill, and spoke strongly of the injustice done to the clergy. He disputed the assertion that this was merely a measure of policy.

At three o'clock in the morning a division took place, and the suspensory bill was rejected by a vote, as follows: For the bill, ninety-seven; against, ninety-two; majority, five. The announcement of the result was received with cheers by the Tory Lords.

*Midnight.*—In the House of Lords to-night, the Scotch reform bill was agreed to in Committee. The Irish roform bill was passed to its second reading.

It was reported in Paraguay that the Congress of the Argentine Confederation would impeach Gen. Mitre for making an alliance with Brazil. The peace party in the Confederation was in the ascendancy, and the election of Uryaiza was considered certain.

FRANCE.

PARIS, June 30.—During the debate on the Budget in the Corps Legislatif, the Speaker of the opposition complained of a profuse expenditure in consequence of maintaining a French expeditionary corps in Italy. THE DEMOCRATIC NATIONAL CONVENTION.

NEW YORK, June 30.—The delegates to the Democratic National Convention are continually arriving. The hotel passages are filled during the day and evening with earnest discussers of the probable action of the Convention. The most prominent names for the Presidency seem to be Hancock and Chase, though the bulk of Pendleton's supporters have not yet got here. The preparations for the Soldiers and Sailors Convention are about completed. They will undoubtedly favor the nomination of Hancock, but will accept the nominee of the Democratic Convention. Tammany Hall is about ready for occupation and is to be thrown open to invited guests on Thursday afternoon.

About ten of the Ohio delegation to the Democratic Convention arrived to-night. There are, however, surprisingly few of the delegates yet in town, probably about 150 of the 650 who will comprise the Convention. Some of the Southern delegates here express themselves in favor of Chase, but all the Western delegates here, declare strongly for Pendleton.

THE ERIE MUDDLE.

The Erie muddle continues in the Supreme Court. At the general term to-day Judge Cardoza delivered an opinion, Judge Barnard concurring, confirming the order of the Court appointing George A. Osgood receiver of sales of ten millions of convertible bonds and funds. Ordered to be paid over to him on Thursday. Judge Ingraham dissents. Judge Barnard in the chambers gave the decision in the contempt cases of Davis, Thompson, Skidmore, Lane, Diven, and Eldridge, of the Erie direction, and imposed a fine of ten dollars on each. The decision in the cases of Fiske and Gould were reserved. It is understood proceedings for contempt are to be had against Drew before Judge Gilbert. Mr. Eldridge has been removed from the Presidency of the Erie road. It is stated the Massachusetts Commissioners decline to issue the three millions of State stock to the Erie directors for the continuation of the Hartford and Erie road to Fishkill, on the ground that said directors have not complied with the law.

The Supreme Court, general term, to-day affirmed the appointment of a receiver for the Rock Island road.

**Meeting of the Senate—Confusion at Organization—An Important Order from Gen. Grant Read.**

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, June 30.—At a meeting of the Senate to-day only the names of those who took the test oath yesterday were called and all answered. Sam. Bally, Democrat, said that his name was not called. The Chair replied that other gentlemen were present whose names were not called, who had not interrupted the business.

During the reading of the minutes Mr. Jewett, of New Orleans, demanded the reading of a communication, which he knew was in the possession of the presiding officer, relative to the oath to be taken by Senators. No attention was paid to the demand, and after some difficulty order was restored and the reading of the minutes concluded.

The Committee on Elections reported Hugh J. Campbell, Republican, as entitled to a seat from the Second district instead of Anthony Sambola, who was declared elected by Gen. Buchanan. The Committee deny the right of Buchanan to change the registers' return. Campbell was sworn in.

No Democratic members could obtain recognition from the chair. A motion to allow a black Democrat to address the Senate was tabled.

The Chair then handed a communication to the Secretary which he directed to be read. It proved to be an order addressed to O. J. Dunne, Lieutenant Governor, presiding officer of the Senate. It communicated a telegram from General Grant to General Buchanan to the effect that the members of the Legislature are only required to take the oath prescribed by their Constitution, and not the test oath prescribed by the Reconstruction Act. Gen. Buchanan accordingly issued orders that only that oath prescribed by the Constitution be required. Referred to a Special Committee, which was appointed.

After the election of permanent officers a resolution ratifying the fourteenth amendment was offered, but postponed until the House is heard from. The Senate then adjourned. A copy of General Grant's telegram was read in the House and referred to a Committee.

The City Comptroller, Sheriff and District Attorney, elect, have taken possession of their offices under General Bucanan's order of Saturday, taking the Constitutional oath.

Mr. Isabell, temporary Speaker of the House, to-day, after General Buchanan's order was read, said in his opinion the House could decide what kind of a test oath was necessary for the admission of members, and that for his part he would not accept any order from Gen. Grant or Gen. Buchanan upon the subject.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, June 30.—The examination of W. B. Donaldson, of the steamer Great Republic, charged with shooting Henry Anderson, a negro hand on the boat, was conducted to-day before Judge Dennison, of the Police Court. The defendant's counsel desired to waive an examination, but the Judge overruled it. Only two witnesses were examined, viz: Samuel Ray, porter of the boat, and Lawrence Glover, cabin boy, who was handcuffed and confined in the same room with Anderson. Glover testified directly to the fact that Donaldson shot Anderson, putting a pistol to his ear and firing. Ray testified that a pistol was fired while he was in the room, but did not see it, as he was drawing whisky from a barrel and his back was turned. Capt. Donaldson was committed to jail for murder in the first degree, and the witnesses were bound over to appear before the grand jury. A large crowd was present at the examination, most of them negroes, and much interest was manifested in the proceedings.

—A dead woman was found lying in the upper story of the tenement house, 127 East Houston street, New York, yesterday. Her name was Ellen McBride, and Wm. Flnn, with whom she was living, has been arrested on the charge of murdering her.

—The report of the House Military Committee on Antietam Cemetery matters substantially sustains the position taken by a majority of the Trustees, viz; that it is the duty of the country to see that the Confederate dead are properly buried in the portion of the Cemetery set apart for that purpose.

—In the case of Dr. John Flint, of Boston, against the New York and Norwich Transportation Company, to recover for loss of one of his legs, occasioned by the discharge of a musket in the hands of a United States soldier on board of one of defendants steamboats, in June, 1864, the jury rendered a verdict for plaintiff for $10,000.

—Gov. Bullock, of Massachusetts, has issued orders for tendering official honors to the remains of Rear Admiral Bell and Lieutenant Commanders Reed and McKenzie, which will be removed from the Navy Yard to-morrow. A funeral cortege will accompany the bodies through Boston to the depot and minute guns will be fired.

—John Cole, of Warrensville, Cuyahoga county, Ohio, on Saturday last, murdered two step sons, named Quayle, with a butcherknife, and assaulted others in the neighborhood. He defied arrest by the local authorities, but was finally arrested by police from the city. He was formerly a Lake sailor, and was a violent, quarrelsome man, much feared and disliked.

THE *Cottage Gardener*, of London, says earthing up potatoes diminishes the produce and retards the ripening of the tubers. Long experiments in England have proved this fact, that hilling up the potatoe will reduce the crop one-fourth. Our farmers must, however, remember that the correctness of this theory depends on the nature of the soil. The potatoe likes not wet feet. If there is that danger, better plant shallow, and hill up.

### YESTERDAY.

What makes the king unhappy?
His queen is young and fair,
His children climb around him,
With waving yellow hair.

His realm is broad and peaceful,
He fears no foreign foe:
And health to his veins comes leaping
In all the winds that blow.

What makes the king unhappy?
Alas! a little thing.
That money can not purchase,
Or fleets and armies bring.

And yesterday he had it,
With yesterday it went,
And yesterday it perished,
With all the king's content.

For this he sits lamenting,
And sighs, "alack! alack!
I'd give one-half my kingdom,
Could yesterday come back!"

—The diary of old King Louis of Bavaria was to have been published, but it has been found so shockingly wicked that it is now to be withheld.

—A well trained blood hound is worth $300 in New York now, and a young one costs $50. This is another evidence of the value of education.

—Admiral Farragut's son is named Loyall Farragut, a name which it is not necessary to say would have been most appropriate for the gallant father.

—Nillsen wants 200,000 francs for a six months tour in the United States and Schneider has refused to come on the same terms which Ristori received.

—The free baths in Boston are well patronized. Boston people like to keep clean, as we have no doubt would the Pittsburgh people if they had a chance.

—The Paris *Charivari* is to be prosecuted for saying "The French have now the right of holding public meetings, provided they take good care not to make any use of it." And the *Lanterne* is to be prosecuted for saying that one of the duties of the semi-official journalists is to insist that a faded woman of forty-four (meaning the Empress) is more beautiful than the Medician Venus.

—The Canton of Uri, in Switzerland, is a bad country for saucy editors. Offences against the press law are punished with twenty or more lashes on the bare back. The stocks are also still in use for journalistic offenders.

—The St. Louis *Dispatch* is rubbing its hands and thanking the Lord that it is not like other journals, particularly the St. Louis *Democrat*, which, having incurred the displeasure of the *Dispatch*, is thus publicly reprimended.

—For some reason or other the ceremony of decorating the graves of the soldiers who are buried at Erie was postponed by the commander of that post of the G. A. R. On last Sunday, however; they performed this duty with very imposing ceremonies.

—Mr. George W. Childs, of the Philadelphia *Ledger*, is to give a grand dinner to the newsboys of the Quaker City on the Fourth of July. The dinner will be furnished by the Continental Hotel cooks and served in the immense basement of the *Ledger* building.

—Simrock, the German *savant*, says the title "A midsummer night's dream" is nonsense, and that the day on which Shakspeare's play known under that name takes place is the first of May. He says the abovementioned title was given to the play by some ignorant fool, long after Shakspeare was dead.

—Mayor Blackmore has pronounced against fire arms and crackers on the coming Fourth, and very properly too, but that didn't hinder us from having one of the finest exhibitions of celestial artillery yesterday morning that it is possible to conceive. The approach, the engagement and the retreat, with all of the sublimity of the roar and rattle of awful war, was very grand for any one who sat under his own or his neighbor's lightning rod.

—Langiewicz has written a startling letter to several Poles in Florence, telling them that any Pole would be justified in shooting Alexander II, like a dog. The letter closes as follows: Remember the fourteen Polish mothers whom the cowardly villain caused to be hung at Wilna! Remember the hundred and fifty Polish matrons and girls whom his Cossacks had to drive to Siberia! Blessed be the bullet that pierces the heart of this crowned assassin!

—The story comes from Nashville that a Federal soldier, dying in New York, informed a benefactor of the hiding place of a large amount of treasure that he had buried in a garden in Nashville. The friend went to Nashville, got drunk and told his secret. His confidant stole a march on him by finding the spot and digging it that very night. They were frightened off by the owner of the property, and he in turn is now digging for the gold, under the inspiration of a dream, but without success.

—An exchange says: Daniel Webster wore a hat the size of which was 7 5-8; Thurlow Weed wears the same size; Abraham Lincoln's was 7 1-16; Daniel Lord's, 6 7-8; Horace Greeley's, 7 1-2; Jas. Gordon Bennett's, 7 3-8. Mr. James T. Brady has a head as large as that of any public man in the country. Sir Walter Scott and Lord Byron wore very small hats, but they had brains somewhere, as all will admit. Perhaps their brains lay mostly in the crowns of their heads, or perhaps the brain substance was unusually compact.

—Madame Ristori's friends were so very enthusiastic on the occasion of her recent departure that she had great difficulty in preventing them from taking the horses from her carriage and putting themselves in their places. Bateman, Grau, Brignoli, Kate Field, John Brougham, Lester Wallack, Mrs. Hoey and many other well known persons were on board the Ville de Paris to see the great actress depart. Miss Scott, daughter of Col. Thos. A. Scott, Baron de Concercas and Henry J. Raymond, of the New York *Times*, were among the passengers on board.

A COLORED MAN in Richmond, Va., John Dabney by name, purchased his freedom from his mistress just before the war, for $2,000, agreeing to pay the amount by installments. During the pendency of the struggle he paid about one-half of it in Confederate currency, which was at last so depreciated in value that his late mistress requested him to discontinue the payments until the close of the conflict. When slavery was abolished the debt was no longer due; but, notwithstanding he was advised against such a course, Dabney lately transmitted to his old mistress, now in indigent circumstances, $600 in greenbacks, being the balance of the $2,000 he had contracted to pay.

SECURITY AND COMFORT FOR THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

## RIVER NEWS.

The Monongahela river was about stationary last evening with twenty-three inches in the channel by the pier marks. The weather yesterday was oppressively hot, notwithstanding we had a heavy rain storm accompanied with thunder and lightning.

The America succeeded in reaching the wharf on Monday evening after sparring in Glass House and vicinity for the greater part of two days. She is announced to leave for St. Louis to-day.

The Julia No. 2 departed for Zanesville with all the freight she could take on the water.

The Gusgow was due from Parkersburg last evening.

Business is virtually suspended at the wharf, and no improvement need be expected until there is a rise.

—A special to the Cincinnati *Gazette* from St. Louis says: The case of Capt. Donaldson, charged with killing a negro on the Great Republic, a few days ago, has produced a good deal of interest here, and the examination, which is now set for Tuesday next, is looked forward to with considerable anxiety. Capt. Barr, one of the Clerks of the boat was arrested Saturday, and held in $1,000 bonds as a witness. The theory of the defense seems to be that the boy, Glover, confined with Anderson, the deceased, did the shooting, designing to kill Donaldson, but missing his aim, shot his companion. There is much mystery involved in the case, which only a thorough examination will clear up. It is understood that the Robert Small Society, a colored organization, have raised a large amount of money to assist in the prosecution of Capt. Donaldson.

—Our readers will doubtless remember that the time of the Magnolia steamboat explosion on the Ohio a large reward was offered for the recovery of the remains of Miss Retta French, a Kentucky lady, who was known to be one of the passengers on the ill-fated steamer. A few days ago as some persons at California, about one hundred yards below the scene of the disaster, were walking along the shore, they discovered a body almost entirely covered with mud and sand, which, upon examination, proved to be that of Miss French, as was shown by a breast pin with her name engraved on it, and other parts of clothing.

—We also clip the following items from the same paper of Monday. The Lorena, from Pittsburgh, and the Pine Grove, from Cumberland river, were expected in last night, and, no doubt, will be at the wharf this morning. The Lorena leaves for St. Louis this evening.....The local Inspectors, and several prominent engineers, examined the boilers of the Magnolia, on Saturday. As yet, they have made no official report, but the opinion prevails that the explosion was caused from the scarcity of water in the middle boiler.

—We have been aware for some days that the Mississippi Valley Transportation Company were about to carry cattle on their barges northward. The Shark left New Orleans on the 23d, as we learn from *Crescent*, and took on several hundred head. The *Crescent* reporter thinks it is a slow way of getting cattle to market.

—The officers of the Edinburg report the river at Buffington Island as being in very bad condition. Part of the dam at the head of the island has washed away, which spreads the water and lessens the channel in depth. They also report the Lorena as being hard aground on the lower island reef.

—The Wanunita arrived at St. Louis on Saturday last, and the Ida Stockdale and Minnie left there the same day for Fort Benton.

—The Maggie Hays left St. Louis for Pittsburgh on Saturday.

Gold closed yesterday in New York at 140¾.

POSTS of the G. A. R. will be interested in an order, which we print this morning, from Gen. LOGAN, relative to the preservation of reports of the proceedings recently held in commemoration of the dead soldiers of the Republic.

AN enthusiastic Chicago editor, writing an elaborate puff for a steamboat owner, who gave the fraternity a dead-head excursion upon his vessel the other day, sums up the mariner's virtues by declaring that during his steamboat experience "he has transported millions of passengers, millions of miles, with a total loss of *less than one hundred.*"

MR. HORATIO SEYMOUR'S high-sounding declaration, in his recent New York speech, that $800,000,000 had been expended for the army and navy since the close of the war, is collapsed by the authoritative statement of Mr. BLAINE, on the floor of the House, "that $625,000,000 of this amount had been expended immediately after LEE'S surrender, in mustering out a million soldiers and fifty thousand sailors, discharging the government's obligations to them for back pay, bounty and prize money."

THEY are beginning to count noses at New York, and it is reported that Democratic delegates stand for PENDLETON 106, HANCOCK 80, JOHNSON 57, HENDRICKS 22 and CHASE 18. There is vastly more significance, however, in another rumor from the same quarter which declares that the Southern delegates hold the choice in their hands, and incline to PENDLETON, whose war record fully satisfies them. But it is not to be forgotten that the two-thirds rule, which is certain to be adopted, invariably upsets all previous calculations.

THE plans of Mr. JOHNSON and his Southern rebel friends, to obstruct the inauguration of the new State governments, have been effectually checkmated by General GRANT. His order to Gen. BUCHANAN to remove the provisional authorities in Louisiana, substituting for them the candidates chosen for the respective offices at the recent election, was carried into effect on Monday last, and is to be followed by similar orders applicable to the other reconstructed States. This effectually strips the President of the last vestige of his usurped authority, and of his ability for mischief in those States.

A RECENT discussion upon points connected with vaccination, among eminent medical men in New York, has elicited from the highest authority in that speciality in the city, a statement in detail, showing, among other things, that only healthy children have perfect vesicles; that pure matter from such a vesicle does not generally transmit other diseases, the lymph of the eighth day leaving no trace of the child's constitutional taints; that the stock of virus now twenty-five years old, i. e. which has for that period been transmitted from subject to subject, is not weakened thereby, and that vaccination from the human subject is less dangerous than that from the cow. The absolute immunity from small-pox, to be secured by proper vaccination, is also made evident, in the experience of nearly four hundred thousand cases.

A VERY INTERESTING REPORT, upon the inter-commerce of the States and upon the transportation question, with especial reference to the safety of lives and property and uniformity in tariffs of charges, was submitted to the House, some days since, from the Committee on Roads and Canals, to which had been referred many petitions for Congressional intervention to control these questions in the popular interest. The majority of the Committee entertain no doubt as to the power of Congress to legislate upon these matters, so far as shall concern lines of transportation extending continuously into and through two or more States, but that no such power exists in the case of roads or lines comprised entirely within the limits of single States. The Committee omit, however, to report any bill, assigning the late period of the session, the importance of the subject, and the want of the needful specific information, as valid excuses for the omission. A Democratic minority of the same Committee reported against the legality or necessity of any legislation whatever on the subject. These questions are, nevertheless, likely to come up again at the next session, when the foundation may be laid for a general system of Federal supervision of railways which shall secure, at least, greater immunity for life and protection to property.

IF WE are to admit the expediency of any departure, by Congress, from the policy of an absolute refusal to appropriate a dollar for any purposes except those of undeniable necessity for the public interests, we must regard the River and Harbor bill, which yesterday passed the House, as one meritorious exception. We are aware that the friends of this bill, as a whole or in its several details, defend it as a measure really necessary and therefore unavoidable. We are not prepared or even disposed to dispute that claim altogether. Nevertheless, we have great confidence in the judicious discretion which prompted such members as DELANO and WASHBURNE to move great reductions in the sums appropriated, cutting down the aggregate from six millions to two millions, and should have been quite as well pleased if their motions had been adopted by the House. The debates have made it evident that, while the bill makes certain specific appropriations of an indispensably necessary character, there are other items among its provisions which may wisely be deferred until a more favorable period in our financial condition. The old chronic difficulty with this class of appropriations—their arrangement to suit log-rolling combinations among members—led, in former years, to the extravagant expenditure of millions annually, and to the subsequent temporary abandonment of the improvement-policy by the Federal authority, but, revived as it is by the present bill, it proves again too strong to be overcome by the urgent opposition of economical members. Past experience does not encourage any hope that the Senate will cut down the figures which the House has thus approved.

WE HAVE not favored such changes in the Law of Libel as would grant immunity in detraction and abuse to conductors of public journals. But we do maintain that the law ought to be so amended that the proprietors and editors of newspapers can publish fair and impartial accounts of all proceedings before the Courts, without being liable to indictment or actions in damages. The people have a right to know, at all times, what the Courts are doing, and reasonably look to the newspapers for the information they desire in that regard.

The law ought, also, as we think, to be so modified that malice shall not be inferred from the bare publication of an injurious statement, though the particular statement may be inaccurate or even wholly false. It has happened in several recent instances that newspaper publishers have been prosecuted for inserting paragraphs from other journals, reflecting upon individuals whom they did not know, and against whom it was consequently impossible they should entertain ill-will. Nay; publishers have been sued, and the presumption of malice has been ruled against them, for the publication of paragraphs they never saw, until after their journals containing them had gone to press, and the edition had been worked off. It is folly, in such cases, to rehearse the legal maxim that whatever a man does by his agent, he does himself. Neither the agent nor the principal is actuated by malice, but by an honest desire to provide their readers with the latest news touching all matters of interest.

The newspaper has become an essential institution of modern civilization; and, while we condemn the license which some editors and publishers are ready to take with the reputations and feelings of individuals or families, we hold that the conductors of the press ought not to be mulcted in damages, or incur penalties by fair and judicious efforts to make up a record of current events.

THE N. Y. *World*, printing a ponderous communication from Judge CURTIS, in which the position is taken that the Southern Democracy may lawfully proceed to undo the work of reconstruction, so far as it relates to the question of colored suffrage, comments thereon editorially, exploding the Judge's entire magazine by projecting into it again Judge TANEY'S celebrated decision in the Dorr case, which held that the Congressional interpretation, as to the republican form of government of any State, was final and binding upon every other department of the Federal authority. After this hoist to the reactionary Judge, the *World* concludes as follows:

There is no inconsistency in yielding to events and abandoning a hopeless opposition. When somebody shall have succeeded in pointing out a practicable method of uprooting negro suffrage within the next Presidential term, we promise our co-operation. But it cannot be done, even if we elect the President; and as to proclaiming a vain purpose to do it, we do not see how that is to help us gain, either in the North or in the South, the votes needed to make the Democratic party a majority.

IT is very plain that the Democratic National Convention is to be ruled by the same rebel spirit as before the war. Southern delegates are gathering at New York, uncompromising in their denunciations of any concessions to the political equality of race, and boldly demanding that the Convention shall accede to their views. Of these Democratic dictators, the New York *Herald* says:

They are coming out as fresh, as fierce, as contemptible, and as impudent as ever, in view of the assembling here of the Democratic Convention. They are all in the city, and all writing savagely Southern letters to their home admirers, informing those people generally of their own consequence.

These representative Democrats are determined to have their own way, and, if need be, are as ready to fight for it as they were at Charleston in 1860.

## THE MILITARY DEMOCRACY.

The corporal's guard which adhered to the political fortunes of President TYLER was, in its day, the standing theme of ridicule. Mr. TYLER had no party whatever to sustain him, having betrayed his former Whig supporters, and being thoroughly despised by the Democracy which had made his weakness and duplicity serviceable. But a handful of disreputable and discredited politicians was gleaned together from the camp-followers of both the great parties, constituting the President's confidential following, and, in the way of Executive patronage and profitable jobs, these fellows made rather a good thing of their attachment to that Executive Ishmael. But we are pained to observe that no such consolatory pickings are to reward the very light brigade of ex-sutlers and paper warriors who are trying to win notoriety in various quarters just now, as "Conservative Soldiers and Sailors." Mr. JOHNSON has better friends of his own to look out for, and will give them nothing, while the Democracy, whom they are endeavoring to serve, will never have anything to give. Their virtue is to be its own reward, and it will not need much to constitute an ample compensation. The corporal's guard of JOHN TYLER assumes the proportions of a vast army, when compared to the diminutive squad which figures to-day. For example, in this densely populated county, a "seven-by-nine" room held the half dozen who constituted the Conservative Soldiers and Sailors of Allegheny, a few days since. Their State Convention in Connecticut last week, assembled just thirty-eight persons at New Haven. In Ohio and Indiana, they have called themselves the "White Boys in Blue," and have achieved a pitiable fiasco, not yet daring to show themselves in public, with not a single prominent soldier of the war, with an honorable record, in their ranks. Their leader in Indiana is a militia hero, who never smelt powder, and whom even the "White Boys" have been compelled to cashier for lack of brains. Their entire strength in Indiana is not three thousand votes, and in Ohio still less. The truth is that this organization of "Democratic Soldiers" is a failure everywhere, even more contemptible in its real composition and numbers than the TYLER party of 1843-4.

## RAILWAY DEVELOPMENTS.

The impression widely prevails that a serious falling off has been experienced in railway passengers and freights since the close of the war, though all the actual returns seem to point in the opposite direction. As a specimen, take the statistics of transportation over the Pennsylvania Railroad for the past seven years. Of freight, exclusive of that for the use of the Company itself, there were in 1861, 1,620,586 tons; in 1862, 2,058,548; in 1863, 2,265,413; in 1864, 2,585,379; in 1865, 2,555,706; in 1866, 3,186,359; and in 1867, 3,709,224. Of passengers there were carried, in 1861, 1,059,088; in 1862, 1,143,418; in 1863, 1,707,386; in 1864, 2,366,213; in 1865, 2,861,836; in 1866, 2,673,566; and in 1867, 3,347,466. All the leading lines show proportionately favorable results. The increase in freights is owing to the augmented production of the country, consequent mainly on the return of a million of able-bodied men from the pursuit of war to the duties of peace. The increase of travel naturally grows out of the general prosperity, which not only requires locomotion on its own account, but furnishes the means for journies both of friendship and pleasure.

In view of the facts as they stand, it is apparent that the trunk lines, unless their number shall be enlarged, will require not simply two, but three and even four tracks each. When the point in railway development shall be reached in which, on all the principal lines, two tracks shall be profitably used for freights and two others for passengers, a degree of safety and economy will be reached which would now be commonly deemed incredible. Freights will then be carried at slow but uniform speed, stoppages to get out of the way of speedier passenger trains being entirely avoided; while passenger trains will not incur the liability of running into freight trains or being otherwise impeded by them.

The Hudson River Railway Company has already taken measures for connecting its switches so as to constitute a complete third track. Not many years will elapse before the fourth track will be laid on that line.

## THE HISTORY OF DEMOCRATIC CONVENTIONS.

Up to 1824, candidates were nominated by Congressional caucusses. In 1828, JACKSON was nominated by various State Conventions. In 1832, the first Convention met at Baltimore, nominating JACKSON and VAN BUREN by acclamation. In 1835, the party met again at Baltimore and nominated VAN BUREN and R. M. JOHNSON, the latter being subsequently chosen by the Senate—the only instance of the kind in our history. In 1839, the party again at Baltimore nominated VAN BUREN, but no candidate for the second office. In 1844, again at Baltimore, the two-thirds rule was introduced to beat VAN BUREN, and POLK received the nomination. In 1848, at Baltimore once more, CASS was nominated under the two-thirds rule on the fourth ballot, but VAN BUREN'S friends re-assembled at Buffalo and effected the defeat of the regular nominee. In 1852, at Baltimore for the sixth time in succession, under the same rule, PIERCE and KING were nominated, the former on the forty-ninth ballot. In 1856, under the same rule, they nominated BUCHANAN on the seventeenth ballot, at Cincinnatti. In 1860, they met at Charleston, DOUGLAS had a majority, but not two-thirds of the delegates; the Convention split, one wing subsequently nominating DOUGLAS at Baltimore, and the other selecting BRECKINRIDGE at Richmond. In 1864, the Democracy met at Chicago and selected MCCLELLAN and PENDLETON. The two-thirds rule having thus prevailed for good and evil, in six successive Conventions is recognized as of binding usage on the party and will be sustained as such next week at New York, when we shall see what curious ends—not looked for by the uninitiated—it will accomplish.

## NO UNPLEASANT ALLUSIONS.

Good Democratic authority announces that such Southern delegates as were prominent in the Confederate military service, need have no concern as to their reception in the New York Convention. They will be regarded merely as delegates "without reference to their record in the war." The New York correspondent of the Boston *Post* says:

It is the purpose of the leading men of the Democratic party to do all they can to make the Convention perfectly harmonious, and I think no demonstration for or against any man on account of his position in the war will be made either in or out of the Convention. If Gen. Forrest and Gen. Wade Hampton appear in the places assigned to them, the Convention will regard them merely as delegates and show them the same courtesy and respect shown to delegates from any Northern State.

Of course it would be indecorous in the extreme for the Convention to recognize any allusions to the recent unpleasantness. They will consistently adhere to their own resolution of '64, that the war was a failure, and will welcome the Southern delegates, the red-handed butcher of Fort Pillow and all, as if no rebellion and no war had ever been. This tender and considerate forbearance towards the erring is a policy which suits Copperheadism exactly, but what do honest and patriotic Union-loving Democrats think of it? How does it please them to see these honors paid to the rebels who slaughtered our brethren and kindred when upholding the American flag; who mowed down the brave volunteers with grape shot, bush-whacked and cut the throats of our soldiers, starved them in prisons and shot them on the dead lines; the rebels whose spirit instigated and approved the assassination of LINCOLN, and who swear to-day that the "lost cause" shall yet triumph? Can the honest, sincere lover of his country sustain a party which shows to FORREST and WADE HAMPTON the same courtesy and respect as to delegates from Northern States?

## A LOVELY RE-UNION.

However the Democratic Convention may divide on questions of policy for the Presidential canvass, it will witness upon one point the most unruffled and lovely harmony. Red-handed rebels and Northern Copperheads will sit side by side, deliberating together, without the faintest trace of bad feeling in consequence of the late unpleasantness. They will differ about candidates and platforms for to-day, but it is simply impossible for them to quarrel about the past. As to the events of the past seven years, they are now, as they always have been, perfectly agreed. The rebels may, and probably will, playfully rally their Copperhead neighbors upon the personal cowardice which prevented these from going South and fighting, for the cause which they espoused as openly as they dared at home, but Forrest & Co. will not make these reminders too pointed, since they will gratefully remember that the Copperheads did for the rebel South as much effective service as their constitutional aversion to fighting would allow. The delegates will felicitate each other upon the termination of that awkward state of affairs which made it inconvenient for Forrest & Co. to attend the last Convention in '64, and the present reunion will be welcomed with mutual delight. Decidedly, the Convention will be harmonious on all questions relating to the rebellion.

## THE DEMOCRACY AND ITS MASTERS.

Our City is already enlivened by the presence of certain "old stagers" in politics, who form the advance guard (or skirmishers) of the grand gathering of next Saturday to nominate the Presidential ticket to be beaten by GRANT and COLFAX next November. Though the Convention is entitled Democratic, (after the similitude of Bottom's dream,) all the defunct parties will be represented therein—ancient Whigs or Know-Nothings who were Rebel or Copperhead in the late War being more at home on the present Democratic platform than devotees of Jefferson and Madison; while the bitterest anti-Grant men are the handfull of renegades from the Republican party. We presume they will hardly be able to agree on a ticket and adjourn before Tuesday week.

The Chase movement has developed new strength here within the last few days, and many of the cooler heads incline to support the Chief-Justice and get out of the Copperhead rut; but we still think Chase's name, after being used to kill Pendleton's prospects, will be dropped, and that a third candidate—probably Hendricks, possibly Hancock—will be brought forward with success. A clique of our New York wire-workers are laying pipe for Seymour; but to no purpose. If any Eastern man should be nominated, it is more likely to be Gov. English of Connecticut. All is guess-work as yet; but we consider Hendricks against the field about an even chance.

Gov. Seymour's late speech was not designed to help Pendleton, nor will it.

The Chase movement—which at one time promised success—has been blasted by the breath of the Southern Bourbons. The unchanged Rebels, whether called Whigs or Democrats ten years ago, are determined on fighting one more battle for that "White Man's "Government" which they inaugurated at Montgomery seven years ago, and which they are still bent on inaugurating, whether in the Union or out of it.—*N. Y. Tribune.* 29th.

## A REPRESENTATIVE DEMOCRAT.

At the banquet after his oration, a few days ago, as the Virginia Military Institute, General Wade Hampton, who leads the delegation of South Carolina to the New York National Convention, made a reply to a toast to "the fallen heroes of the war," in which he said: (We copy from the report in the Richmond rebel papers.)

Alluding most touchingly to our martyred dead, he said that our grief should be tempered as we remember that they fell when they thought they would not fall in vain—that they fell in the bright hope that success would crown our efforts. *But he did not believe they had fallen in vain—the cause for which Jackson and Stuart fell cannot be in vain, but in some form would yet triumph.* He proposed the "Lost Cause," for which our heroes fell. This was drank silent and solemnly by all; and in looking around we observed that nearly all present were Confederate soldiers.

AT TOURCOING, a town on the N. E. frontier of France, near Lille, a most brutal crime was recently committed through the effects of superstitious fear. An old woman was reported to be a witch and to hold communication direct with Satan. Everybody dreaded her and all accidents or misfortunes were laid at her door. Two men, fearing her influence, determined to rid the country of such a plague, and therefore fell upon her at night with their knives and killed her.

## Senator Hendricks.

Senator Hendricks seems to be the accepted man for July 4th. He is a church member who commonly receives no callers on Sunday; but, on the last Lord's Day, the Democrats, seeing how the wind blew, overran his house, and he held a reception all day long. Hendricks is a man of changeable appearance. On the floor of a Congress he looks large, dignified and statesmanlike, his face being always composed, his eyes placid, mild intellectuality expressed in his brows and mouth, and his garb plain and citizen-like. He has dark auburn hair, a light complexion, slightly freckled, and soft white hands. But I have seen Hendricks in the street, under the full daylight, looking decidedly unlike a statesman. Then his skin has a dirty look, his hair seems lusterless, his features, relaxed, express very little character—by which I do not mean moral character. As a speaker he is plausible, never excited, frequently just beyond the most charitable partizanship. He is not above five feet ten in height, and weighs probably one hundred and sixty pounds. Except very short side whiskers his face is smooth shaved. As a President, Hendricks would look handsome in the seat. He voted for appropriations to sustain the war. His family were Ohio people, quietly well off, and he studied law at Chambersburg, Pa. He began public life about the time that Colfax did. The Speaker and Hendricks are very friendly.

This nomination will be the most honest one the Democrats can make; it will draw out every vote they have. Hendricks is a pure man, of good moral record. But it is difficult to see what headway Hendricks can make against Grant. He is not so popular in Indiana as Colfax. The Democratic press have trifled with such Republicans as might have voted for Chase, so that not even the Chief Justice can greatly affect the Republican party's unity now.—*Wash. Cor. Cin. Com.*

## Grant and His Friends.

A Washington correspondent writes as follows:

Grant is in nothing more acceptable than in his knowledge of character. No great military leader has ever had more devoted friends among his associates and subordinates. There are no voluminous letters on file in his department complaining either of his civil superiors or military comrades. When he had to censure or dismiss, it was done without passion or parade.

The friend of Governor Yates and Mr. E. B. Washburne at the beginniag of the war, he is their friend now. All his West Point comrades speak well of him; and those who served him in Mexico remember him with respect. Though he had hardships to endure during the rebellion, and envies to encounter, and enmities to surmount, few words of recrimination have fallen from him. Even the Blair family, who have scolded everybody through four years of their bizarre politics, have not attacked him. All his generals gather around him like brothers; and there is not one of the corporal's guard of brigadiers, who have made a sort of commercial engagement to vote against him, that does not make it a point to reserve a record of compliments to Grant.

THE question of suffrage has taken a peculiar form in the Southern States. The Republicans favor impartial suffrage, and the Democrats oppose it with a qualification which may be put into this formula: "The negro is unfit to vote unless he votes our ticket." In Mississippi negro suffrage is popular with the Democracy, and the New York Convention may lose the electoral vote of that State if it comes out flat-footed against negro suffrage. If the Democracy desire harmony North and South, East and West, they will incorporate the above formula into the national platform.—*Cincinnati Commercial.*

## DO NOT BE DECEIVED.

When the system is once affected it will not rally of its own accord: it needs help—it must be strengthened and invigorated; this is especially the case when the

KIDNEYS, BLADDER OR URINARY ORGANS

Are affected. For immediate relief and permanent cure,

DR. SARGENT'S

*Diuretic or Backache Pills*

Are a perfectly safe and reliable specific. This well known remedy has effected a large number of speedy and remarkable cures, and have never failed to give relief when taken according to directions.

*Dr. Sargent's Backache Pills*

Are purely vegetable, and contain no mercury or calomel. They do not exhaust the system, but on the contrary they act as a tonic, imparting new tone and vigor to the organs and strengthening the whole body. These Pills have stood the test of thirty-five years, and are still gaining in popularity.

## A Warning to Counterfeiters, and a Caution to Purchasers.

No expense will be spared, no legal means of punishing fraud will be neglected, in the effort to prevent the counterfeiting of HOSTETTER'S STOMACH BITTERS. But counterfeitism, when its cunning and activity are stimulated by the hope of gain, is very ingenious and industrious. The men who se despicable business it is to simulate valuable proprietary medicines, and who substitute therefor dangerous or worthless preparations, are proverbially difficult to catch. Most of them have many aliases, and they flit from State to State with surprising agility, in the hope of evading the clutches of the law. The proprietors of HOSTETTER'S STOMACH BITTERS are determined, if possible, to *hunt them down.* Traveling agents are employed for this purpose, and whenever an offender is detected he is prosecuted with the *utmost rigor of the law.* No amount of vigilance, however, can prevent the occasional introduction of imitations and counterfeits. The public are therefore CAUTIONED not to purchase any article purporting to be HOSTETTER'S STOMACH BITTERS which is not authenticated by the handsome government stamp specially engraved for the proprietors, and also by their superb new label with a beautiful vignette, representing the conflict between St. George and the Dragon, at the top, and a miniature note on hand, signed Hostetter & Smith, at the top.

N. B.—The genuine BITTERS are sold in BOTTLES ONLY. All persons who pretend to sell the article by the gallon or barrel, are imposters, and the stuff they offer is a worthless and probably poisonous counterfeit.

## CURE OF FISTULA.

DR. KEYSER: I write to thank you for your kindness and scientific management of my disease, for which I called to consult you some time in January last. You will remember that I had a complication of diseases, which finally ended in a terrible fistula, which I had been advised to "let alone," on account of a harassing cough, which it was feared might fasten it on my lungs. I knew that the peculiar mode of treating diseases like mine was by a cutting operation, which, if successful at all, would naturally throw the disease upon the lungs or some other vital organ, on account of the suddenness of the cure and the immediate check to the discharge, which I believed was a salutary provision of nature to get rid of some morbid condition of the system. I feel perfectly satisfied that your method of treatment, purifying the system, and local applications to the fistulous part, must cure, if anything could, without cutting, which I find it did, and I am happy to report myself well in every particular, with sounder and better health than I have had for years. I would also add that the applications you made were almost painless, and have left me a new man, with all the energies and vigor of restored health.

Yours, gratefully, I—— C——.

DR. KEYSER'S CONSULTATION ROOMS FOR CHRONIC DISEASES, No. 120 PENN STREET, from 9 A. M. UNTIL 3 P. M.

June 17th, 1868.

THE Democracy have a negro on the stump in Virginia, who declares himself to be a Virginian, a real Virginian, and will not take the oath. His name is Lafayette Washington, and he is considered quite a windfall to the party. We are pleased to observe, as we do through the medium of a real Virginia paper, that Lafe's speeches are making "a profound impression," nor are we surprised at the remark of a correspondent of the Washington *Republican*, that in Virginia "a Democrat nigger does not even smell bad." He becomes a man and a brother the moment he gets on the Democratic side. So we go.

KEEP milk cows or fat cattle in the same enclosure with your sheep, and dogs cannot molest them. This is a secret worth hundreds of thousands to farmers and the State. It ought to be published in every week's paper, and the owner of sheep to subscribe for our paper. Thirty years' experience has established the soundness of this advice.

A PIECE of lard as large as a walnut, mixed with dough, will cause a hen to commence laying immediately after she has been broken up from setting; and by giving hens fat in this way, they may be kept laying all winter.

**640 MILES**

OF THE

**UNION PACIFIC RAILROAD**

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

**GREAT NATIONAL WORK,**

At the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is on absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which OVER EIGHT MILLION DOLLARS have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

**FIRST MORTGAGE BONDS**

upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. The price is 102. At the present rate of gold, these bonds pay an annual income on their cost of

**NEARLY NINE PER CENT.**

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Pittsburgh by

**At the Company's Office, No. 20 Nassau Street,** and by

**JOHN J. CISCO & SON,** Bankers, No. 59 Wall Street, and by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices, or to any of the advertised agents.

**FOURTH OF JULY CELEBRATION.**

**POLICE NOTICE.**

The imminent danger to life and property attending the firing of guns and pistols, and the explosion of fire crackers and fire works in our public streets on the Fourth of July, and the sad accidents which have annually resulted from this injudicious mode of celebrating our National Holiday, have induced a large number of our most influential citizens, including property owners, underwriters, and others deeply interested in the safety of property within our city precincts, to address me on the subject, requesting that I should enforce the City Ordinances prohibiting it. This it is unquestionably my duty to do, and I now hereby give notice that I will give it my ESPECIAL attention. All offenders against the law will therefore be rigidly prosecuted, and the fines and penalties imposed, IN EVERY CASE, without regard to person.

## FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 30, 1868.

Government securities show a decided downward tendency; the market closed at a slight advance last night, but at the opening of the market, there was quite a pressure to sell, and large lots were offered at a fraction below current rates. The question of taxing the interest on bonds being construed as pointing to a general indisposition to buy bonds, and, probably, would cause bonds to be reshipped from Europe. There is no question that any tampering at present with either taxing bonds or interest or issuing currency will bring Government securities in disfavor, and instead of being able to reduce the rate of interest on the national debt at an early date, we may be compelled to do business for years under suspension, and be impoverished by the flood of foreign manufacturers and high prices of produce.

Gold is rather dull, although the market closed at about the average quotation of the day; the opening price was 140¼ to 140⅜ and 140⅜. There has so far been very little gold come on the market out of the July interest; it will take nearly all this week before the bulk of gold will have supplied the ordinary channels. Importers are holding back under the firm belief that lower rates will prevail during next week. The very fact that nearly all the large holders of gold are anxious to sell out as soon as the market touches anything above 140¼. Coupons are freely offered at the counters of banking houses, and 139½ to 139¾ readily accepted, which shows how public opinion on the gold question turns.

The stock market is rather tame at a period when money is so easy, and is still expected to be in better supply yet during the early part of the month. The North Western shares are still advancing, especially the common stock—the balance of the list is much lower. New York Central, Erie, Cleveland & Pittsburgh and Fort Wayne have all declined. There is a large amount of the Cleveland stock held by parties here on small margins in the hope of a sudden advance to par, or at least 95. The warning given in these columns when the stock began to raise above 89, that the rise, if any could be engineered, would be but small and temporary; the parties who counselled their friends and sold out 91¼ to 91½, and, of course, buy back at 2 per cent. lower. So long as money remains as cheap as at present it may be well enough to carry it per cent. stock, but when money becomes scarce, but speculator cannot carry stocks with the same facility, he gets tired of holding out when there is no prospect of advance, gets disgusted and sells out with a loss, so does his neighbor, until the market gets low enough for bona fide holders to buy in. The principal manipulator in this stock is a bold unscrupulous stock operator, and if he can make something out of his friends, he will, like any other Wall street broker. Express stocks are improving, under purchases of the bear clique, and in anticipation of a July dividend.

Mining shares are better. Business dull, and money scarce at from 10 to 12 per cent.

Closing quotations as received by Ph. R. Mertz, were as follows:

Gold, 140⅜; 1881 bonds, 117¾; 1862 5-20s, 113; 1864 do, 110¾; 1865 do, 111; new, 1865 and 1867, 113⅝; Ten Forties, 113¾; Seven Thirties, 109¼.

New York Central, 133⅞; Erie, 68¼; Michigan Southern, 91⅞; Cleveland & Pittsburgh, 89¼; Northwestern, common, 71⅝; Preferred, 77¾; Chicago & Rock Island, 104¾; Pittsburgh & Fort Wayne, 100¼; Ohio & Mississippi Certificates, 29⅛; Merchants Union Express, 25½; Western Union Telegraph, 34⅛; Corydon, 35; Quicksilver, 22½; Quartz Hill, 1,15.

—Says the Philadelphia *Ledger*, of Monday: As usual at the close of the week there was an increased number of lenders on Saturday, and in some instances at rather lower rates. We still, however, quote the general rate for coal loans at 4 to 5 per cent., and discount for prime commercial bills at 5 to 6 per cent. The banks are doing little paper at less than 6 per cent., and prefer to lend on call at 4 per cent. to discounting at 5. While some of our merchants show a willingness to sell on four and six months' credit, they either fail to effect sales or keep the paper they make, as very little of it comes on the market.

—Closing quotations received by James T. Brady & Co.:

Gold, 140¼; U. S. 6's, 1881's, 117¾; 5-20's, 1862, 113¼; 5-20's, 1864, 110⅛; 5-20's, 1865, 111⅛; 10-40's, 107½; 5-20's, January and July, '65, 113¾; 5-20's, January and July, '67 113⅜; June 7-30's, 109⅞; July 7-30's, 109⅞; May Comp., 1865, 119,-30.

### Chicago Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, June 30.—Beef cattle dull; choice shipping nominal at $7,25a7,50. Hogs very dull and 25a30c lower; sales at $7,50a8 for fair to good smooth.

## PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June, 30, 1868.

The general markets continue very dull and devoid of any new characteristics worthy of special notice. Wheat took another upward turn in Chicago to-day, No. 2 having advanced to $2,20, but as this is the last day of the month, we should not be surprised to hear of it going back again, as the "shorts" will either have to cover their contracts or pay the differences. It is reported that the Chicago millers are buying at $1,85, which shows that the movement is entirely speculative, and that the inflation will be of short duration; another fact goes far towards proving what we have just asserted, which is that while Wheat has been up 15 to 20c per bushel, there has been no advance whatever in Flour. If there was any legitimate cause for the advance in Wheat, Flour would most undoubtedly respond. On the contrary, the impression gains ground daily that both Flour and Wheat must of necessity rule lower, for the reason that there is every appearance of heavy crops.

BUTTER—Is quiet and unchanged; we continue to quote prime to choice fresh packed at 25 to 27.

EGGS—In good supply and dull, with a drooping tendency; we now quote at 21c, some holders asking 22c.

CHEESE—Is quiet and unchanged at 13 to 14c for Western Reserve; 15 to 16c for Ohio Factory; 18c for Limburg, and 20c for Goshen.

POTATOES—New Potatoes are in steady demand at $6 to $6,50 per bbl. Old crop, $1,15 to $1,20 per bushel.

HAY—Weighmaster McNulty reports sales of 38 loads at $12 to $22 per ton, as to quality.

STRAW—Sales at $10 to $14.

GRAIN—There is but very little old Wheat in market, and there will not be much done until the new crop commences to make its appearance; we continue to quote at $2,30 to $2,35 for Red and White. Oats—quick sale at 75c, on track, but there are but very few sellers at that price, as holders generally are asking 77 to 78c. Corn is in light supply, but the market is dull, nevertheless, and prices are nominal at $1 to $1,05, on track and in elevator. Rye is in much better demand, and with a very limited supply and very light arrivals, prices are tending upward; we can report small sales at $1,60, and a round lot would doubtless command $1,65 or $1,70. No Barley in market.

DRIED FRUIT.—Is exceedingly dull, and holders generally are very anxious to close out their old stock. Apples may be quoted nominally at 5¼ to 6½ and peaches at 10¼ to 12½.

LARD-OIL.—Is unchanged at $1,20 for No. 2 and $1,40 for No. 1.

PROVISIONS—Bacon is quiet and unchanged at 13¼c for Shoulders; 16c to 18c for Ribbed and Clear Sides, and 19¼c to 19¾c for Canvassed Sugar Cured Hams. Lard, 17¾ to 18c, for prime kettle rendered. Dried Beef, 21 to 22c. Mess Pork, $28 to $28,50.

SALT.—Is dull and nominally unchanged; $1,75 to 1,80 to the trade, and $2,00 for small lots.

SEEDS.—Flaxseed is in steady demand at $2,50 to 2,55.

FLOUR.—The market is dull and unchanged at $9,00 to $9,50 for medium Spring Wheat brands; $10,25 to $10,50 for choice do; $11,00 to $11,50 for Winter Wheat and $14 to $15 for fancy brands. Sales "City Mills Springfield" at $11,25; "Mad River" $11,25; "White Star" $11; "Red River" $11,75; Clark XXX $10,50; "Empire" and "Beaver Dam," $10,25. Rye Flour $9.

## PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 30, 1868.

CRUDE.—The crude market was rather quiet to-day, the volume of business compared with Monday being insignificant, 5,000 bbls against nearly 18,000 bbls; the feeling, however, seems to be just as strong as ever, and spot oil has advanced another half cent. We can report sales of 1,500 and 1,000 bbls, both on spot at 13½, and a line of 2,500, 500 each from Aug. to December at 14. All the year, buyers option, may be quoted at 15, the last sale reported being at that figure. Notwithstanding the European markets show no material improvement, our own as well as the eastern markets appear to be strong with a decided upward tendency. Oil City telegrams report the market firm and advancing $5,15 to $5,25 being the ruling quotations at that point. In regard to the production there is nothing or important; it is generally conceded, we understand, that it is slightly increasing.

REFINED.—There was but a single sale of bonded oil reported to-day, 500 bbls on spot at 30¾. Notwithstanding there was little or nothing done, the market is firm and prices are well sustained. There were two reasons for the very light volume of business: one was that it being the last day of the month, the great proportion of the operators had their time and attention absorbed in making deliveries and settlements; and the other, there was little or no oil offering. As we have already intimated the market is strong and decidedly in favor of sellers, though it is difficult to conjecture with any degree of certainty, how long it will continue so. The stock of oil in this market is pretty well reduced while, according to late circulars, it has largely increased in Philadelphia, though, we believe, it falls short of the stock there this time last year.

## PITTSBURGH WOOL MARKET.

OFFICE OF PITTSBURGH GAZETTE, TUESDAY, June 30, 1868.

The receipts of Wool are increasing, and the shipments eastward are already beginning to show an effect by a decline in prices. We notice from our exchanges that in many of the Wool growing sections a large portion of the Wool has already been purchased. Our dealers are purchasing Wool at lower rates than prevailed two weeks ago. We quote coarse fleece at 35 to 37c; medium fleece and tub-washed, 37 to 40c; three-fourths and full blood, 38 to 42c. Badly washed and greasy Wools are out at one third discount. The fine Wools of Allegheny and Washington counties are not yet selling to any extent, as they do not seem willing to accept the prices. Eastern buyers, on the other hand, will not give orders for the purchase of this Wool, when equally as good Wool can be bought in other sections at 40c.

### New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 30.—Dry Goods market less active, as the trade is chiefly occupied taking stock, but a firmer feeling is apparent in anticipation of improved inquiry and improved prices ere long.

The Pittsburgh Gazette.

# CITY AND SUBURBAN.

## CITY COUNCILS.

**Adjourned Meeting—The Report of Districting Committee Adopted as Amended.**

An adjourned meeting of City Councils was held yesterday at two o'clock, to consider the report of the Committee appointed to redistrict the city.

**Select Council.**

Members present—Messrs. A. M. Brown, Cochrane, Coffin, Dickson, Gallaher, Gross, Kehew, Laufman, Morrow, McClelland, McEwen, Ogden, Phillips, Rees, Shipton, Wainright, White, and President McAuley.

The President stated that it would be necessary for Select Council to remain in session until after Common Council had taken some action on the report of the Districting Committee, which had been before Select Council at the preceding meeting, and that they were ready to transact any other business which might be brought before them.

Mr. A. M. Brown moved that Councils reconsider the vote passing "an ordinance locating the Greensburg turnpike Company," to a third reading.

After considerable discussion, the resolution was adopted.

Major Brown then moved that the matter lay over until the next regular meeting. The motion was adopted.

Mr. Morrow submitted the following resolution:

*Resolved*, That a Committee of five be appointed to re-number the wards.

The resolution was not adopted.

Mr. Ogden moved that the "ordinance repealing an ordinance for widening Chestnut street, Lawrenceville," which was adopted in Commou Council and laid on the table in Select Council, be taken up.

Mr. Kehew opposed the passage of the ordinance. He said the street should be made sixty feet wide instead of forty feet.

The motion was not adopted.

Mr. M'Clelland offered the following resolution:

*Resolved*, That the Street Committee be and they are hereby directed to have the necessary sewerage construction in the Diamond Square. Adopted.

Councils adjourned.

**Common Council.**

There were present, Messrs. Barnhill, Barton, Batchelor, Berger, Brush, Caskey, Carroll, Daub, Dravo, Davis, Fitzimmons, Friday, Gerner, Hemphill, Herron, Hillerman, House, Jeremy, Kremer, Mawhinney, Meyer, Moorhead, Palmer, Rebman, Reed, Reynolds, Robb, Rosewell, Scott, Sims, Torley, Torrens, Verner, Vick, Weldon, Welsh, Zern and President Tomlinson.

On motion the reading of the minutes was dispensed with.

Mr. Brush presented a petition from the property owners of Clark street, in the Sixth ward, praying for the grading, paving and curbing of that street from Crawford to Miller streets. Referred to the Street Committee.

Mr. Weldon stated that the Street Committee would like to recall the ordinance changing the names of streets. There being no objection, the ordinance was permitted to be withdrawn for the needed alterations.

Dr. Gross, from the Select Council, was admitted to the floor, having been instructed by the Select Council to report to the Common Branch, the action of that body on the report of the re-districting of the city. He read the ordinance.

Capt. Batchelor moved that the action of the Select Council be concurred in, which was promptly seconded.

Mr. Sims objected to the irregularity of the numbering, as shown in the case of the 10th ward.

Mr. Brush thought the ordinance should be concurred in, and the numbers, where wrong, could be changed in the future, as it was a matter of not much importance.

Mr. Barton obtained the floor, and endeavored to offer an amendment, which was ruled out of order by the Chair.

Mr. Robb moved that the ordinance be acted on ward by ward, and not as a whole, in the concurrence.

Mr. Reed called for the ayes and nays on the question.

The vote resulted as follows:

*Ayes*—Messrs. Barnhill, Barton, Carroll, Daub, Dravo, Friday, Gerner, Hemphill, House, Jeremy, Kremer, Reynolds, Robb, Sims, Torley Verner, Vick, Weldon, Welsh, Zern and President Tomlinson—21.

*Nays*—Messrs. Batchelor, Berger, Brush, Caskey, Davis, Fitzimmons, Herron, Hillerman, Myer, Moorhead, Palmer, Rebman, Reed, Rosewell, A. Scott and Torrens—16.

So the resolution prevailed.

The ordinance was then taken up and the boundaries of the different wards separately adopted. When the Third was reached Mr. Torley moved to non-concur with the Select branch, and to restore the boundary line formerly drawn down Washington street.

Mr. Weldon said if opportunity were afforded him he could satisfactorily show that the changing of the boundary line of that ward was a gross injustice and outrage on his constituents.

Mr. Caskey raised a point of order which was sustained by the chair, and Mr. Weldon was obliged to yield the floor.

The motion of Mr. Torley was voted down, and Mr. Reed moved to concur with action of Select Council, which was adopted.

The wards were adopted till the Twentieth was reached. Mr. Barton moved to non-concur, and asked to introduce an amendment. The chair ruled the amendment in order, and Mr. Barton read the following as a substitute:

That the line begin at a point on the Pennsylvania Railroad and at the line of Liberty and Pitt Township, thence by said line to the line dividing Liberty and Pitt Townships, thence by said line to the township road leading from John Murdock's to Squirrel hill road, near David Irwin's place, thence by said road to the Farmers and Mechanic's turnpike road, thence by said road to the new street leading past Roup Station to Central Avenue, thence by Central Avenue to Pennsylvania Railroad, and thence to the place of beginning.

The amendment was lost by an almost unanimous vote, and the section as well as all the remaining ones, was concurred in.

On motion of Mr. Rebman the entire ordinance was read three times, and ordered to be printed. (It will be found on our fifth page.)

There being no other business Common Council adjourned.

MORTGAGES.

Same day ten mortgages were recorded.

**Cure for Consumption.**

Eat all that the appetite requires of the most nourishing food, such as fresh beef, lamb, oysters, raw eggs, fruit, vegetables, and three times a day take a glass of eggnog, made as rich as the patient can bear. Avoid all alcoholic drinks, Bathe twice a week in water made aggreeably warm, and in a warm room, after bathing rub the body and limbs with sweet oil. Exercise daily in the open air: walking is the best. Stand erect; exercise the arms and lungs freely, keep the mind cheerful, take freely of the best cough medicine, and consumption will be a stranger to your household.

For making the best cough syrup, take one ounce of thoroughwort, one ounce of flax seed: simmer together in one quart of water until the strength is entirely extracted. Strain carefully; add one pint of best molasses and half a pound of loaf sugar; simmer them well together; and when cold, bottle tight. It is the cheapest, best, and the safest medicine for coughs now or ever used. A few doses of one tablespoonful at a time will alleviate the most distressing cough of the lungs, soothes and allays irritation, and if continued subdues any tendency to consumption; breaks up entirely the whooping cough, and no better remedy can be found for croop, asthma, bronchitis, and all affections of the lungs and throat. Thousands of precious lives may be saved every year by this cheap and simple remedy, as well as thousands of dollars which would otherwise be spent in the purchase of nostrums, which are both useless and dangerous.

**To Our Patients, (Both Dead and Alive.)**

Those of you who are living can bear testimony to what I am going to say, and those of you who are dead cannot, *unfortunately*.

Our books can be examined by the curious at our office, where the names of over 40,000,000 of persons have been cured within the last year of as many different diseases. The most of these patients we never saw nor heard tell of until recently. The majority of them were chronic cases of hundreds of years of duration, and some few had been unsuccessfully treated by both Galen and Esculapius. All of them reside in the most remote parts of the world, and one very bad case still under treatment is an inhabitant of the moon.

We do not desire to either see or hear tell of a patient to guarantee a cure. All we want is a few parings of the nail of the great toe of the right foot. Should the patient have lost that toe either by accident or design (many such patients are to be found since the draft) that from the toe of his nearest kin by his mother's side will do.

We have secured at great trouble and expense from the west, as an assistant, a big medicine man who has got his second sight and can, consequently, at a glance see right through you. Owing to our immense practice and profits we have made a proposition to our Government to pay off the national debt; therefore, we intend to spread ourselves, and we cordially invite all to call at our office and see for themselves free gratis for nothing. Please don't scrouge

**Repairing.**—The Manchester Railway Company are repairing their track on Federal street.

**New Water Main.**—A four-inch water main is being laid on Locust street, Fifth ward, Allegheny.

**New Light.**—A new gas-light has been placed in front of the Union M. E. Church, Manchester, which is quite a convenience.

**The First Presbyterian Church pic-nic,** announced in yesterday's paper for Thursday morning, has been postponed until further notice.

**To be Painted.**—The iron work on the Monongahela suspension bridge is to be painted white. The painters commenced work yesterday.

**Some sneak thief entered the meat shop** of Mr. Van Baren, on Penn street, last Saturday night, and stole two dollars, which had been left in the drawer.

**Warrant Issued.**—A warrant was issued for Leonard Schriner, by the Mayor, yesterday, on oath of Mitchel Davis, charging him with assault and battery.

**The Weather.**—The thermometer stood at eighty-three degrees in the shade yesterday afternoon. The storm in the morning cooled the atmosphere somewhat.

**Heavy Thunder.**—Several lights of glass in a window of a house on Wylie street, in the Third ward, were broken by the concussion during the storm yesterday.

**There was a rumor circulating yesterday,** that a house in the Second ward, Allegheny, had been struck with lightning, but we failed to trace it to any reliable source.

**Charged with Desertion.**—Justice Moffat, of Elizabeth, committed Samuel Meadville to jail this morning on a charge of desertion preferred against him by his wife, Mary J. Meadville.

**Dividend.**—The Western Savings Bank, one of the best managed and most trustworthy of our banking institutions, announces a dividend of four per cent., payable on and after to-day.

**Struck by Lightning.**—A small shade tree on Wylie street, in front of Mrs. Strain's residence, Third ward, and a locust tree on Centre avenue, were struck by lightning during the thunder storm yesterday.

**Vagrant.**—On Monday a stout, healthy looking individual, calling himself Wm. Little, was arrested by the Allegheny police, while begging in the Third ward of that city. He was allotted twenty days in jail for vagrancy.

**Severely Injured.**—We learn that a lady residing on Pennsylvania Avenue in the Eighth ward, was seriously injured by lightning yesterday. We failed to learn the lady's name or any particulars connected with the accident.

**Capt. W. B. Donaldson** had a hearing on the charge of murdering one of the negro hands of the steamboat Great Republic, at St. Louis yesterday, and was committed to jail on the charge of murder in the first degree, to appear before a Grand Jury.

**Advance.**—The boilers of the various rolling mills of this city have asked for a temporary advance of one dollar per ton for puddling. It is quite likely that the advance will be willingly allowed by the employers, and that no strike will ensue from the demand.

**The First Balloon.**—The first balloon of the season was sent up from a private residence in the Second ward, Allegheny, about eight o'clock last evening. It sailed majestically upward until a current of air changed its course to the north and rapidly bore it out of sight.

**Burglary.**—The residence of Capt. McDonald, one of the Denny cottages in Pitt township, was broken into last Saturday night and a quantity of jewelry and other valuable articles stolen, amounting to two or three hundred dollars worth. No trace of the thief has been discovered.

**Larceny.**—Henry Smith alleges that William Singelfelier and John Keely entered the premises occupied by him in the Seventh ward, and after breaking several panes of glass in the house, they carried away a lot of oil valued at six dollars. A warrant was issued by Alderman Strain.

**Personal.**—Mr. Bowman, recently "local" on the *Republic*, is now connected with the *Sunday Leader*. Mr. B. is an energetic reporter and a ready writer, and his column in the *Leader* will always be readable. Mr. T. R. Hahn, late of the Opera House, succeeds Mr. B. as "local" on the *Republic*.

**Inquest.**—At the inquest held by Coroner Clawson on the body of Samuel McKain, of Allegheny, who suddenly fell dead in Breed's Grove on Monday, the jury returned a verdict of death from heart disease. The deceased was over sixty years of age, and leaves a wife and four grown up children.

**Assault and Battery.**—James Byrne made information at the Mayor's office yesterday, charging Thomas Gazola with assault and battery. Gazola was arrested and after a hearing held to bail for his appearance at Court. He was also held on a similar charge preferred at the same time and place by Henry Markles.

**No Larceny.**—We stated yesterday that Mrs. Maddox had been arrested on a charge of larceny, on oath of Ann Richards, before Alderman Thomas. It appears that the articles alleged to have been stolen were kept by Mrs. M. in payment of a board bill due her from the prosecutor, who boarded with her some time.

**Removal.**—An order was received some days since for the removal of Wm. Henry Friar from the Center county to the Pittsburgh jail, and the change was made accordingly yesterday. The prisoner is charged before United States Commissioner Hamilton, of Bellefonte, Center county, with stealing a registered letter from the mail.

**Stole his Greenbacks.**—John Barry alleges that while on a visit to his sister Catherine, who is married to a Mr. Collins, of Wood's Run, McClure township, she stole from him twenty-five dollars in greenbacks, and when he asked her about it, she drove him from the premises with an axe. A warrant for her arrest on a charge of larceny was issued by Alderman McMasters.

**On His Muscle.**—Thos. Gazzola, an Italian gentleman, desiring to test the strength of his muscle, attacked James Baker and Henry Markle on Wylie street, Monday evening last. Not relishing the assault, they had the belligerent arrested and fined twenty-five dollars and costs for disorderly conduct. He was also compelled to give bail on two other charges of assault and battery preferred against him.

**Surety of the Peace.**—Isaac Bierman made information yesterday before Alderman Strain against Jacob Guskey for surety of the peace. Bierman alleges that Guskey has in several instances intimidated persons from purchasing goods in his store, thereby greatly injuring his business, and that he still continues in the practice. The accused was arrested and held to bail in the sum of five hundred dollars.

**Boy Injured.**—Yesterday morning a little boy, whose name we failed to learn, was driving down Federal street, Allegheny, during the storm, when the horse became frightened at a clap of thunder and sheered to one side, causing the driver to be thrown from his seat and under the wagon. The wheels of which passed over both legs, injuring them severely. His injuries were attended by Dr. T. C. Rhoads, of Allegheny.

**Discharged.**—The parties engaged in the shop lifting case which was noticed yesterday were discharged by the Mayor, no person appearing to prosecute. The woman being again questioned gave her name as Monstrose, which was all the information that could be obtained from her.

We were in error in stating that the goods belonged wholly to Mr. Dunlap, Mr. Ewer recognized a part of them as his property, and a part still remain at the Mayor's office awaiting identification.

**Inquests Held During the Month.**—Coroner Clawson during the month of June, held thirty inquests. Of that number there were eight suicides; thirteen drowned accidently; two were killed on railroads; two killed in coal pits; three died of apoplexy; one killed by falling from a cherry tree, and one by an accident in Coleman & Co.'s mill. There were twenty-five males and five females. This is the largest number of inquests ever held in one month by the Coroner of this city.

**McIlwaine's Stock Sale.**—The following stocks were sold last evening on the second floor of the Commercial Sales Rooms, 106 Smithfield street, by A. McIlwaine, Auctioneer:

**An Old Fashioned Storm.**—Yesterday morning this neighborhood was visited by one of the most terrific storms of wind and rain, thunder and lightning in the memory of the oldest citizen. The storm came up rather unexpectedly and took almost half an hour to spend its fury, which it did in right good style. The air seemed thoroughly charged with electricity, lightning flash following flash in quick successions, and long, rolling, deafening thunder peals following to rattle windows and shake houses to their bottom bricks. We have heard of several trifling freaks of the lightning, but with great show at execution it worked little damage.

### Another Information.

We noticed some days since the arrest of John Pendine and Robert Esler on a charge of aggravated assault and battery, preferred by Adam Dehl, and for felonious assault and battery on oath of August Saenger, at which time we published the facts connected with the affair. By some misunderstanding with regard to the time appointed for a hearing, the prosecutors did not appear, and the accused were discharged. Yesterday the prosecutors called to know what disposition had been made of the case, and were surprised to learn that the offenders had been discharged. The informations were renewed and warrants issued for the arrest of the accused.

### Playing With Powder—An Accident.

Three little boys, residing at Butcher's Run, Seventh ward, Allegheny, while playing last Saturday, erected a mimic fort, and procuring by some means a quantity of powder, proceeded to blow it up in accordance with their ideas of warfare. Placing the powder in the fort, covering the whole with shavings, and applying a light to the mass, they fell back a short distance to witness the effect. Waiting a few minutes, and thinking the shavings were not ignited, they again approached and began to fan them into a flame, when suddenly an explosion occurred, burning their hands and faces and otherwise severely injuring them. Being conveyed to their homes, medical aid was summoned, and they are now considered out of danger.

### Summer Excursions.

The Pennsylvania Railroad Company, with commendable liberality, has resolved upon issuing summer excursion tickets to Atlantic City, Cape May, Niagara Falls, Gettysburg, the oil regions, and many other points of attraction in Pennsylvania and New York. Cape May passengers can purchase tickets to go and return by all railroad, or they can arrange to take steamer in either direction, between Philadelphia and Cape May. Excursion tickets are also for sale at the above depot to Niagara Falls, the oil regions, Gettysburg and numerous points in Pennsylvania and New York. Pamphlets, containing full descriptions of the various excursion routes by the road, can be had on application to W. H. Beckwith, the General Ticket Agent at the Union Depot. Persons desiring to make summer excursions are thus enabled to do so at very moderate expense, and, doubtless, thousands will embrace the generous opportunity afforded for so doing by the Pennsylvania Central Company.

### Amusements.

OPERA HOUSE.—Carncross & Dixie's Minstrels, now playing at the Opera House, are drawing full houses. Over three hundred reserved seats were sold yesterday, and the house was filled last night with a brilliant and fashionable audience. Their entertainments are of a versatile character, and superior to that of any minstrel troupe now travelling. "Under the Gaslight" is produced with all the original scenery and paraphanalia. Their music, both vocal and instrumental, is of a very superior order. Mr. Carncross is one of the finest tenor singers we have ever heard. He possesses a fine voice with remarkable compass, and high cultivation.

The troupe will remain during the present week, and will give a matinee Saturday afternoon.

Professor Lawton is arranging to repeat the "Old Folks Concert" which proved such a success the other night at the Academy. To-morrow evening the first rehearsal will be held in the Fifth street First Methodist Church.

### Sad Case of Drowning.

We are pained to announce the death, by drowning, in the Monongahela river during the prevalence of the storm yesterday forenoon, of Mr. John L. Hartzell, brother of Major Will M. Hartzell, of this paper. The deceased was in a skiff rowing across the river, just this side of Dam Number One, when the violent storm of wind and rain came up quite suddenly, and the waves dashed the boat full of water, causing it to sink. The deceased, who was most an expert swimmer, at once struck out for the Birmingham shore, which he would have safely reached, had not a steam tug boat, moored at a landing, parted her cable and swung out into the river, drawing several barges with her, which swept over the deceased, preventing his further exertions to save his life. The body was recovered within half an hour after the drowning. The deceased, a paper hanger by trade, was most an estimable and industrious young man, and his untimely end will be mourned by a large circle of friends and acquaintances. He had just finished his nineteenth year, and leaves a wife and one child, two weeks old. His body was conveyed to his late residence on Washington street, Birmingham, where Coronor Clawson held an inquest, which resulted in a verdict in accordance with the facts as above stated. This is the second brother Major Hartzell has lost by drowning.

### Meeting of Joint Committee on Union.

At the recent meetings of the United Presbyterian General Assembly and the General Synod of the Reformed Presbyterian Church, committees were appointed to arrange terms of organic union for the two bodies. The Joint Committee met yesterday afternoon at two o'clock in the First U. P. Church, Seventh street, and organized by appointing Rev. John McMaster, D. D., Chairman, and Rev. Dr. Faston Secretary. Dr. McMaster opened the meeting with prayer. When the roll was called, the following gentlemen answered to their names: Rev. Drs. J. T. Pressly, J. T. Cooper, John Douglas, John McMaster, J. S. Easton and J. F. Morton, and Thomas McCance, Esq., Elder.

The Chairman requested some of the gentlemen who were acquainted with the mode of procedure in the Union Conventions to indicate the course that should be taken.

Rev. John T. Pressly, D.D., said he had taken part in all the Union Conventions of the Associate, Associate Reformed and Reformed Presbyterian Churches that were held in former years. The venerable Doctor then gave a succinct and interesting history of these Conventions, and the manner in which they conducted their proceedings. The Testimony of the United Presbyterian Church had been agreed upon after the Reformed Presbyterian Church withdrew from the Union Conventions. But it was framed with special reference to the good brethren of the Reformed Presbyterian Church. He did not see how the name could be changed. He was afraid a change in the name would meet with some opposition. But in the framing of the Testimony by his Church, there was due regard had to the principles maintained by the Reformed Presbyterian Church, in the hope that, ultimately that Church would come into the Union.

Rev. J. T. Cooper, D. D., of Philadelphia, said that, with the exception of the last three or four, he wrote all the declarations and the argument and illustration of the Testimony of the United Presbyterian Church. He wrote it, too, with the Testimony of the Reformed Presbyterian Church lying before him, and incorporated all its leading, fundamental doctrines. It was written deliberately with the view that the Reformed Presbyterian Church would, finally, go into the Union. He did not care much about the name. But upon this he could only speak as he felt himself. There was nothing distinctive in the word "United" as applied to the General Assembly of his Church. When the union was formed between the Associate and Associate Reformed Churches, they both sunk their names. There is nothing in the designation of the General Assembly of the United Presbyterian Church that indicates the distinctive principles of any of the Churches that compose it. It might seem invidious to introduce a name that might convey something distinctive. For himself he had no feeling on this subject, but he feared there would be some objection to a change on the part of some of his brethren.

Rev. John Douglas, D.D., said Dr. Cooper had taken an excellent text when he selected the Reformation Principles of the Reformed Presbyterian Church as the basis of the Testimony of the United Presbyterian Church; and thought that all would admit that he had made an excellent sermon on the text. It was his opinion that the text and the sermon should not be separated. They should go together. A union should be formed on the basis of both testimonies, for there was no disagreement between them. As to the name by which the United Church should be called, he thought there should be no difficulty on that subject. He knew that the Church he represented would like to have the word "Reformed" inserted in the designation of the United Church, and he would like it very much himself. But if it cannot be conveniently done, he did not think it should be a barrier in the way of the organic union of the two bodies. He was perhaps too enthusiastic on the subject of Union. But he knew that his brethren present desired it, and the feeling throughout the Reformed Presbyterian Church was strong in its favor. He knew there could be no compromise of principle if it were consummated, for there really was no difference in the doctrines held by the two bodies.

Dr. McMaster, Dr. Pressly in the chair, said he was in favor of the union, and the people, he believed, were in favor of it also. But it must be a union of the churches and not a mere merging of one denomination into another. In their deliberations they had to look to the name of the Church and to agree upon a doctrinal basis that would secure the recognition of the Testimonies of both Churches, they being substantially the same. He thought the respective Committees should meet separately, and then meet in *interloquitur* for conference before proceeding formally to business.

Dr. J. S. Easton said he would like to know if the brethren from the Reformed Presbyterian Church had any objection to anything in the Testimony of the United Presbyterian Church. If there were any objection raised against it they would then know how to proceed, and what modifications might have to be made.

Dr. Pressly stated he had a letter from John Alexander, Esq., who could not be present. The Secretary read the letter which urged the contemplated union in the strongest terms.

On motion, the letter was received and placed on file.

Rev. J. F. Morton had always advocated the union of the two Churches, as he believed they were substantially the same in doctrine, government, discipline and worship. It had been asked by some of the brethren of the United Presbyterian Church if there was anything in their Testimony to which they could object. He might ask in reply, was there anything in the Testimony of the Reformed Presbyterian Church to which they could object? He could subscribe to both, with the exception of the "adopting act." But they were there not to speak for themselves, but as the representatives of their Church, who would not be willing to give up their Testimony, or not have it recognized.

A free conversation was then had among the members of the committee on all the points referred to above.

The Committee then adjourned to meet in *interloquitur* this morning at 9 o'clock.

At the close of the interlocutory meeting the Committee will be open for business.

Rev. John T. Pressly, D.D., concluded by prayer.

### The Pendleton Escort.

A delegation from Cincinnati to the New York Convention, known as the "Pendleton Escort," will arrive in the city this morning, between eight and nine o'clock, by a special train on the Pan Handle Railroad. The train will stop at Third and Try streets, where as many of the escort as are in presentable condition, will disembark and will be received by the Fifth Ward Democratic Cass Club, after which a procession will form, headed by the Great Western Band, with the right resting on Fourth street. The procession will then move by way of Fourth, Smithfield, Fifth, Wood and Liberty streets to the Union Depot, where each member will receive his ration of "benzine."

The "Escort," we learn, will remain in the city until after ten o'clock, and we would suggest the propriety of business men keeping their houses closed until after that time.

The Mayor has doubtless instructed his police to be on the lookout for pick-pockets, but there would be nothing imprudent in those having business about the Depot, before the departure of the special train, keeping their hands on their pocket-books.

A delegation from the "Bull Run" district will fire a salute in honor af the arrival of their friends.

### Court of Quarter Sessions—Judge Stowe.

Yesterday morning, on the opening of this Court, the arguments of counsel in the O'Neill riot case were resumed, Messrs. Kerr and Hampton speaking an hour each in behalf of the defendants. John M. Kirkpatrick, Esq., made the closing speech for the Commonwealth. His Honor Judge Stowe then charged the jury as follows:

People have a legal right to assemble together for any lawful purpose, such as consultation in regard to actual or supposed grievances of whatever kind, and also in relation to fixing compensation for their labor. So the law, as I understand it, gives them the right to march in procession with drums and banners along public highways in a peaceable and orderly way, for the purpose of eliciting sympathy from the public, or for any other purpose not positively unlawful. But when any body of men combine together and assemble in public for the purpose of overawing and interfering with others who are not disposed to cooperate with them, or agree with their views in regard to any matter which they may wish to accomplish, and by exhibition of force seek to deter such others from being governed by their own wishes, and compelling them to submit to the control of such body of people from fear of the consequences, such an assembly is clearly unlawful.

In this case, however, there is no evidence to indicate that this assembly was unlawful in the beginning. There is no proof that the original intention was to do any illegal act, and therefore the law holds the assemblage lawful.

The question then is, are you satisfied from the evidence that this procession as a body became riotous, after the procession was organized and started on its way?

If you are satisfied that the conduct of this body of men was violent and aggressive; if their conduct and manner was such as was naturally calculated to put the public in fear as to their safety, or to person or property, the body becomes riotous and the law presumes—in the absence of evidence to the contrary—that every man present and knowing what was going on, and not interfering to prevent it, is a rioter.

But are you satisfied from the testimony that before this procession reached the immediate neighborhood of O'Neill's pits that their conduct as a body was riotous?

Without undertaking to decide the question for the jury, we are free to say we are inclined to think not. So far it would seem to be a procession, actually engaged in no palpable violation of law, so far as the general mass at least was concerned. But if you should believe from the evidence that when these men approached the pits of O'Neill their intention was to compel the hands of O'Neill to quit work, or accede to their demand not to work at the price agreed upon by themselves, then from that moment the law declares this assembly unlawful, and every man among them is held as a rioter, unless you are satisfied from the evidence that he did not participate.

But if you should think that there is not satisfactory evidence that at any time the general object was an illegal one until after they had been stopped from ascending the hill at O'Neill's Works, then was there a riot at or after that time, by some or all of this crowd of people?

If you believe the evidence from the Commonwealth, that after the procession was stopped, it as a body was violent, abusive and threatening, flourishing clubs, cheering and deriding O'Neill and his men, and doing that which was naturally calculated to put O'Neill and those with him in fear of injury to person or property, then it became a riot. But if you should think that the riot (if riot there was) at that time was not a general movement, but only participated in by some of the persons who were present, then the question arises who was engaged in this riot? And here we must impress upon your minds the fact that you must not infer anything against any man simply because he may have been one of this procession, and you must look in this view of the case to the testimony which indicates that some one or all of the defendants were then and there actually engaged in the riot. And it will suffice to say that you can convict no one of them unless you have satisfactory evidence that such individual person was actually a participant. If you are satisfied in this view of the case of the actual participation of any one or more of these defendants in a riot, then you should convict such person or persons of riot, but should acquit every one that is not shown to have actually participated.

But it is urged by the defense that there was no riot at any time, and that all that occurred was brought about by O'Neill's refusal to allow these men to go up to his mines.

If you believe there was no riot, then of course all the defendants should be acquitted; but if there was a riot in which some or all of the defendants participated, then it does not matter even if it (the riot) was brought about by the conduct of O'Neill, by his refusal or resistance to the advance of these people, whether he was right or wrong in what he did. But we have this to say. If these parties, or any of them, undertook to force their way on to the premises of O'Neill he had a right to order them away and resist their advances, if he pleased, and if after that they, or some of them, insisted in forcing their way on or over his grounds, indicating that they were determining to go on, using violence if necessary to secure a passage, the law gave O'Neill the right to resist force with force, and if necessary to his own defense, in standing upon his rights, to take life. No man is bound to run away and allow his premises to be invaded, and this is particularly the case where the intruders number three or more. And this applies to unfenced lands as well as inclosed. Sec. 6. But we apprehend that all this is beside the question here and is only mentioned because of the suggestions made by defendant's counsel in regard to this phase of the case.

Then, gentlemen, was there a riot? If so, when did it begin, and was it general and involve the whole party, or only special and participated in by a portion? If the former, then all present were rioters. If the latter, only those engaged in it.

The case is in your hands. Any person may lawfully endeavor to prevent those engaged in a riot or rout from executing their purpose, and he may stop those he shall see coming to join them, and for this purpose he may lawfully arm himself and may use his arms in suppressing a riot, and much more may a person, by himself and friends or employés, do the same thing when the apparent purpose of the rioters is to injure himself or property.

The jury retired and after an absence of over three hours, returned a verdict of "guilty" as to all the defendants.

VERDICT OF NOT GUILTY.

George W. Black was arraigned on an indictment for the larceny of one hundred and fifty tomato plants value of five cents each, the property of Wm. Lewis. The Court instructed the jury to find a verdict of not guilty, inasmuch as the plants were part of the realty and an indictment for larceny could not be sustained. The jury found a verdict accordingly.

ASSAULT AND BATTERY.

David Davis was arraigned on an indictment for assault and battery on oath of Theresa E. Holthouse, a resident of the Sixth ward, Allegheny. The offense was alleged to have been committed on the 20th of September, 1867. The prosecutrix went into a yard belonging to the defendant to drive out some chickens which had strayed in there, when the defendant, it was alleged, struck her on the head. The jury found a verdict of not guilty, the costs to be divided equally between the prosecutor and defendant.

ALLEGED ATTEMPT TO COMMIT ARSON.

Margaret Monfield was arraigned on an indictment for attempting to commit arson, on oath of Thos. Morgan. It was alleged that the defendant attempted on the 8th of June last, about eight o'clock in the evening to set fire to a house in Springfield, Pitt township, by throwing oil on the stair case and attempting to light it with a match. It was alleged that defendant had threatened to burn down the house and dance in the ashes.

Thomas Morgan was sworn, and testified that on the evening mentioned, between 8 and 9 o'clock, Mrs. Monfield went up stairs, and near the garret threw a cup of oil on the stairs, having a lighted lamp in her hand; afterwards she was trying to light a match; the oil was carbon oil—about a tea cupfull. On trial at adjournment.

**The Original "Diamond Front"** Grocery of McBride & George, No. 164 Federal street, Allegheny, continues to receive a full share of the public patronage. The proprietors have ever made it a rule to keep constantly on hand a large and judiciously selected stock of groceries and provisions, and their patrons can at all times depend on procuring the very best the market affords at most reasonable prices. No where else in the two cities can be found a larger or fresher stock of pure and unadulterated teas, coffees, spices, general groceries and provisions. Dealers who buy to sell again, as well as retail patrons, will consult their own interests by favoring the original Diamond Front Grocery with a purchasing visit.

**Grand Sacrifice Sale.**—Readers should bear in mind the grand closing out sale of carpets, rugs, dry goods and men and boys clothing and straw goods at the auction house salesrooms of Smithson, Vanhook & McClelland, 55 and 57 Fifth street, still continues. The firm have decided to close out entirely in this line of business, in order hereafter to devote their exclusive attention to boots, shoes and gaiters, and hence this sale may be considered as one of sacrifice. The greatest bargains may be anticipated.

**We, the undersigned,** parents of scholars at St. Vincent College, hereby return our most sincere thanks to the faculty of St. Vincent College for their kindness towards ourselves and children. We would recommend the above institution as being perfect in all details. To those parents who desire the welfare of their children, we would recommend the above as one of the best Colleges of the county.

**Perhaps** there is not so much adulteration in the brandies, gins, rums and whiskies dealt in this progressive day as in what is foisted upon the market by irresponsible dealers as pure China and Japan teas. Housekeepers cannot be too careful as to where they purchase. The old reliable tea mart, No. 20 Fifth street, has long sustained a high reputation for the purity and flavor of the teas sold there, and everybody can defend on receiving just what they desire, pure, unadulterated, fine flavored fresh teas at very reasonable prices.
